Quality Policy

Service Standards

- To provide value to our customers, partners and employees we strive consistently meeting our customers' requirements and needs, and ensure all our services comply with legal and regulatory standards as applicable.

Commitment to Quality

- We define quality as conformance to our customers' needs, both internal and external and conformance to service quality requirements.
- We are committed to providing the necessary resources, engaging talented workforce, system and technology to review and continually improve our Management systems.

Supplier Relation

- Assessing capacity while selection, monitoring and evaluating the quality of performance of service partners, suppliers, and contractors and implementing effective communication with them on quality and compliance issues.

Work Environment

- To provide with safe & healthy environment & better work place to employees and train them with basic skills to handle any type of emergency.

Customer Property

- To provide round the clock safety & security to the customers' cargo & property in our custody, by equipping the premises with state of the art safety measures, covering the risk with top rated insurance service providers & training staff to handle any hazard professionally.

Continual Improvement

- Continual improvement of our Shipping & Logistics System and overall performance of the services.
- Learning and development in order to continually improve the skills of our employees, awareness and knowledge of quality issues and practices.
- Identifying, reporting, establishing, reviewing the non-conformance and communicating performance measure and taking action to improve customers' satisfaction and experience.

Communication

- We communicate our quality policy with our customers, employees, vendors and partners and solicit their inputs to enable us to meet their expectations.
- We actively promote this policy across all levels of our employees and encourage them to embrace quality as their personal commitment.

Working with employees to meet performance targets through the implementation and review of these objectives, we hope to create an environment of responsibility, accountability and collaboration which results in profitable sales growth.

"Service Quality is everybody's responsibility"
